

**SHELF STABILITY CHALLENGE?**

# LET'S SOLVE IT TOGETHER

**Your Product. Your Conditions.**

**Your Performance.** That's where our Customer Application Lab comes in.

We partner with your team to test, validate, and optimize solutions for shelf life, texture, flavor, and safety—tailored to your process, your formulation, and your goals.

From pilot trials and shelf-life testing to sensory and analytical insights, we combine technical rigor with real-world relevance.

Let's bring **Your Next Solution** to life

**LABELED AS**

Rosemary Extract, Green Tea Extract,  
Acerola Extract, Mixed Tocopherols,  
Natural Flavor

**RECOMMENDED USAGE LEVEL**

*Dosage may vary based on the active component, application, fat content, regulatory requirements, and desired product quality targets.*

# CAMLIN FINE SCIENCES PRODUCT SHEET

## NaSure® Plant-based Extracts

Formulated with trusted plant extracts like rosemary, green tea, and acerola, this solution meets the growing demand for naturally preserved, consumer-friendly products.

It serves as a clean label alternative to synthetic antioxidants such as BHA and BHT, helping protect flavor, color, and freshness throughout shelf life.

### PLANT-BASED PROTECTION

Natural blends for  
clean-label shelf life  
- no compromise on  
performance.

#### PRIMARY APPLICATION

Fats  
Oils

Meat

Dairy

Sauces  
Dressings
