VANILLIN
US NATURAL

Thinking outside the bean

In today's market, consumers expect ingredients to be natural, traceable, tasty, and authentic. It is important for them to feel good about what they eat. Camlin Fine Sciences (CFS) has spent years thinking outside the bean and worked for years to develop vanillin from both synthetic and natural sources using methods that are both efficient and a flavor profile closer to natural vanilla.

adorr
VANILLIN
US NATURAL

Delivering a flavor profile with unparalleled authenticity, CFS is proud to introduce adorr™ US Natural vanillin derived from ex-clove. It offers a multi-dimensional flavor experience, showcasing not only the sweet and creamy notes of vanilla but also the warm, spicy nuances associated with clove.

When combined with other ingredients too, adorr™ US Natural harmonizes beautifully, offering endless opportunities for pairing with complementary flavors with added stability, safety and reach.

Rich and captivating aroma

Adds depth and complexity to various food and beverage products with applications ranging from baked goods, desserts, and confectionery to savory dishes.

Environment conscious

Obtained through sustainable methods, making it an environmentally friendly choice for conscious consumers.

Sourced from natural ingredients

Free from synthetic additives or artificial enhancers, adorr™ US natural obtained from natural ingredients provides a clean label option for US food manufacturers.

Beyond offering delectable flavor, we strive to minimize our ecological footprint by embracing sustainable practices -from responsible sourcing to eco-friendly packaging; nurturing the delicate balance between flavor and nature's well-being.
