

authenticity,
the true flavour
of adorrTM

adorr
VANILLIN
premium

To develop the world's favourite flavouring and that too in an aggressive speed-to-market timeline is a pleasure. With the world's ever-increasing need for instant gratification, our global pool of expertise has contributed to the development of flavourings that are a value-addition to your manufacturing process.

authenticity is the greatest sensory test

At CFS, by virtue of our strength in vertical integration, we introduced adorr™ vanillin range manufactured at our state-of-the-art facility in India where raw materials to finished products are all produced under one roof. It not only ensures consistent quality, steady supply, transparency, but also complete traceability of adorr™. You can expect a quick response time from our dedicated team, which will facilitate smooth operations. Further, the advantage of having application services in a wide variety of food products can only contribute to your confidence in adorr™.

adorr™ is a symbol of its authenticity. It's not just about delivering the flavour profile but also everything that goes into making it complete in your application.

It's Namaste from India!
